DETAILED ACTION

Claim Objections

1. Claim 7 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The pallet being nestable is recited in claim 1.

Claim Rejections - 35 USC § 102

2. Claims 1-3 and 5-18 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent Publication 2001/0029874 to Muirhead. Muirhead teaches a pallet (4a) comprising a deck (14) with an upper surface (62) and a plurality of supports (12) extending downward from the deck. The deck includes a plurality of openings (64) for receiving the supports of a similar pallet. At the rounded corner edge (20) there are two projections that can be considered to be the at least one projection. First is the projection (200a) that extends outwardly in the vertical direction and is used to hold shrink-wrap (Page 9, paragraph 86). Second, as seen in figure 5 below, the deck includes triangular projections surrounding the edge extending in a horizontal plane outward, thereby the one (A') at the rounded corner is considered the at least one projection.

3. The deck is made up of an upper deck section (60) with an upper panel (2c) having openings (64) and a lower deck section (10) having a lower panel (2a) with the supports (12) thereon. Regarding claim 5, 11, and 12, the triangular projection (A') has an upper surface flush with the upper surface of the deck. Regarding claim 6 and 14, the projection (200a) is used to hold shrink wrap to hold goods on the pallet (Page 9, paragraph 86). Regarding claim 10, the triangular projection (A') does not extend past the side edges due to the other triangular projections, which define the side edge.

Response to Arguments

4. Applicant's arguments with respect to claims 1-18 have been considered but are moot in view of the new ground(s) of rejection. The previous 103 rejection of Breezer in view of Ishizuka has now been withdrawn based on applicant's arguments filed in the request for pre-appeal brief conference. A 102 rejection with the reference to Muirhead has been added and this action is made non-final.
